Press Release – September 2011

BIOMIC V3 Microbiology System Reads Liofilchem® AST and ID Products

Giles Scientific (USA) has collaborated with Liofilchem (Italy) to provide automated reading and interpretation of Liofilchem microbiology products including MIC Test Strips, ID and AST Systems, antibiotic disks, and chromogenic agar with the BIOMIC V3 Microbiology System.

BIOMIC V3's digital imaging technology automates the reading, interpretation, and reporting of Liofilchem products following EUCAST, CLSI or BSAC guidelines. All test plate images are saved in high resolution for future review. Bar code reading and a bi-directional LIS/LIMS interface capability further speeds workflow.

“This collaboration fits perfectly with Liofilchem’s strategy. The proven quality of the BIOMIC V3 Microbiology System strengthens our position in clinical and industrial microbiology,” acknowledged Fabio Brocco, Chief Operating Officer, of Liofilchem. “We are convinced that Giles Scientific’s entrepreneurial spirit and 25+ years of global experience provide a solid foundation for future growth. We are excited to have such an experienced and dynamic team to collaborate with,” he added.

In addition to Liofilchem products, BIOMIC V3 reads a variety of clinical microbiology tests from other AST-ID manufacturers. BIOMIC V3 serves as a primary or secondary AST-ID system for microbiology laboratories of all sizes and setups.

About Giles Scientific Inc: Giles Scientific (Santa Barbara, California, USA) has served clinical, environmental, pharmaceutical and veterinary microbiology laboratories since 1984. Giles Scientific develops, manufactures, sells and supports our customers with our color digital imaging equipment in 63 countries. www.biomic.com

About Liofilchem: Since 1983, Liofilchem (Roseto degli Abruzzi, Italy) has been a world-class manufacturer of quality clinical and industrial microbiology products. Liofilchem’s catalog is comprised of over 4000 items and has customers and distributors in over 80 countries. www.liofilchem.net
