Press Release – July 2021

Agar Dilution Plate Reading in the BIOMIC® V3 Microbiology System

BIOMIC V3 provides automated reading, interpreting, and expert review of CLSI and EUCAST agar dilution tests. This greatly improves accuracy, speed, and standardization of testing. BIOMIC V3 is currently the only automated agar dilution plate reader available.

An enlarged plate image with automated growth spot reading (growth / no growth) is displayed with the option to adjust on-screen by the user. Test results and high resolution images are saved automatically and may be sent to your lab's LIS/LIMS.

BIOMIC V3 automates standard agar dilution 90-100mm round plates, commercial agar dilution plates, and custom agar dilution plates.

About Giles Scientific Inc:

Giles Scientific has served clinical, environmental, pharmaceutical and veterinary microbiology laboratories since 1984. The Company develops, manufactures, sells and supports our customers with our color digital imaging equipment in 100+ countries.
